MEMORANDUM FOR MEDIA VISITOR

FROM: 99 ABW/PA

SUBJECT: Ground Rules and Hold Harmless Agreement

1. Welcome to Nellis Air Force Base! We appreciate you taking time to visit the installation and look forward to working with you to facilitate your coverage. We ask you to observe the following ground rules to ensure your visit goes as smoothly as possible:
 - a. Please stay with your escort while you are on base and follow the instructions given. You should ask your escort for a contact number. If you should become accidentally separated, or when another office escorting you is finished with their portion of your visit, please contact our office at (702) 652-2750.
 - b. While most public areas of the base have no restrictions on taking photos or video, certain areas, activities and equipment have security rules. These subjects might not be clearly marked, so please discuss this topic with your escort before you begin shooting. In general, taking photographs and video on the flightline and in nearby industrial areas is prohibited unless specifically authorized in advance.
 - c. Do not shoot photos or video while away from your PA escort as this can lead to being detained or even prosecuted. Should you become detained for any reason, please tell security personnel that you were brought on base by PA and ask them to contact us right away. Be sure to comply with any instructions given by security officials.
 - d. Be aware of security markings on buildings, fences or walls. Pay particular attention to signs indicating Controlled or Restricted Areas, or red stripes painted on the ground in flight line areas (which also designate Restricted Areas). These indicate areas where special authorization or security clearance is required, and where the use of force is authorized to prevent intrusion. Entering these areas, even by mistake, can result in being challenged, detained and/or prosecuted.
 - e. Nellis AFB's normal mission will continue while you are visiting. We ask you to please be courteous to those who are working, and ask your PA escort for assistance if you would like to speak with on-duty personnel. Also, please pay careful attention to and follow any safety guidelines or protective equipment requirements you receive to prevent injuries.
 - f. If you are granted access to take photographs or video in sensitive or secure areas, a PA staff member or security program manager may be required to conduct a security and

policy review of your footage as a condition of granting access. The purpose of this review is to prevent classified, sensitive or technical information that could harm the interests of the United States from being divulged.

2. Please contact one of our staff members or call our office at (702) 652-2750 if you have any questions or concerns.
